

Lambda Research Corporation is pleased to announce our free seminar on LED lighting design using TracePro in Milano, Italy on Friday, June 23<sup>rd</sup>.

## EVENT SCOPE

This seminar details the steps on how to use Lambda Research's TracePro software to design luminaires that use LED sources. In this seminar, attendees will learn how to create reflectors, define sources and design lamps to achieve a desired luminaire performance.

## EVENT LOCATION

Politecnico di Milano

Laboratorio LUCE - Department of Design – [www.luce.polimi.it](http://www.luce.polimi.it)

Via Candiani, 72 - 20158 Milano – ITALY- [Location Map](#)

## EVENT AGENDA

This all day seminar will take place on Friday, June 23<sup>rd</sup>, 2017, and given in English.

- Morning Session from 9:00am - 12:00am: “How to optimize reflectors using LED sources in TracePro”, attendees will be supplied a computer to train on examples during this session.
- Lunch break 12:00am - 1:30pm
- Afternoon Session from 1:30pm - 4:30pm: Workshop - Attendees will be able to practice and exercise on TracePro with hands-on examples
